Vitrex® Steriheel Baby Sterile Cutting Safety lancet

For high volume blood flow with minimum depth of penetration

ACTIVATION BUTTON Secured by safety tab.

NO CHOCKING HAZARD Non detachable safety tab.

USER SAFETY Blade is fully shielded before and after use.

EASIER HANDLING Anti-slip texture and one hand operation

USER CONVENIENCE Pre-loaded, button activated design.

PATIENT SAFETY Single-use only. Sterilised by gamma irradiation.

PATIENT COMFORT Ultra sharp blade with high speed cutting securing minimal trauma and fast healing.

NARROWED LANCING SLOT Easier positioning

APPLICATION Primarily newborns and preemies. Can also be recommended for other applications where short penetration depth and/or minimal compression of tissue is important.

Recommended use

1. Release the trigger lock mechanism by pushing down the safety tab.

2. Reference position for infant heel blood sampling.

3. Raise the baby’s foot to a suitable position, place the blade slot flush against the heel site and activate the lancet.

4. Collect the blood sample with a capillary tube.

5. Dispose of the safety lancet in a suitable safety container.

WARNING:

Do not use if safety tab has previously been activated or if the shield blister packing has been damaged.

Steriheel Baby Safety Lancet
Vitrex® Sterilance Press II
Sterile Safety lancet

Health workers worldwide face accidental needle-stick injury while caring for patients, putting themselves at risk to blood-borne illnesses including the AIDS virus and Hepatitis.

PRESSURE ACTIVATION ensures a good blood sample every time.

USER SAFETY needle is fully shielded before and after use.

USER CONVENIENCE pre-loaded, pressure activated design.

PATIENT COMFORT high quality, ultra sharp tri-bevel needle or bi-bevel blade, high speed penetration.

EFFICACY variety of point configurations and penetration depths to suit most capillary blood requirements.

APPLICATION blood glucose and other in vitro diagnostic tests.

PATIENT SAFETY sterile, single-use, unable to be re-used.

Recommended use
1. Carefully twist off the protective cap.
2. Select site and press the device firmly against the site to release the lancet.
3. Dispose of safety lancet in a suitable safety container.

WARNING: Do not use if protective safety cap has previously been removed.

Vitrex® Sterilance Flex Sterile Safety lancet

PRESSURE ACTIVATION ensures a consistent blood flow with every use.

USER CONVENIENCE adjustable design provides three different penetration depths from a single unit - easy to use pre-loaded and pressure activated device.

USER SAFETY is assured because the needle is fully shielded before and after use.

COMFORT is provided by high quality tri-bevel needle with high-speed penetration.

PATIENT SAFETY sterile, single-use, unable to be re-used.

APPLICATION can be used for blood glucose and other diagnostic tests.

Recommended use

1. Carefully twist and pull off the protective cap.

WARNING: Do not use if protective cap has previously been removed.

2. Adjust the (adjustable) tip to choose the suitable depth.

3. Push the adjustable safety lancet firmly onto the chosen site to fire.

4. Dispose of the adjustable safety lancet in a suitable safety container.
