

## Vitrex Disinfection Wipes

Vitrex Disinfection Wipes are easy and convenient for cleansing the skin and they can be used before injections and blood sampling. The Disinfection Wipes containing Glycerol counteract dehydration of the skin. The Disinfection Wipes without Glycerol can also be used to cleanse surfaces of Medical Devices to help fight bacteria at the site of application.

The size of the Disinfection Wipe is 140x190 mm. Each Disinfection Wipe is individually sealed and disposable for convenience and safety.
